ARE YOU FULLY AWARE OF ALL YOUR SOFTWARE ASSETS?

Does your business use something like Excel for its software asset inventory? Does the tool you're using fail to reflect the full complexity of your current license inventory? Do you lack the resources to keep up to date with your software licenses and which users or devices they relate to?

Ensure you're more familiar with your license inventory than the software companies are!

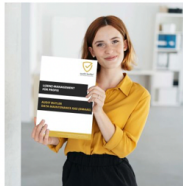

Audit Butler specialises in software assets; it was developed by software asset management experts and programmers with decades of licensing expertise. Our Audit Butler ease-of-use approach will give you optimised guidance in the asset inventory process. An extensive product catalogue of Microsoft licenses will help you capture them. Our input process ensures everything is documented, avoiding any knowledge loss as well as wasted hours and hours preparing for audits.
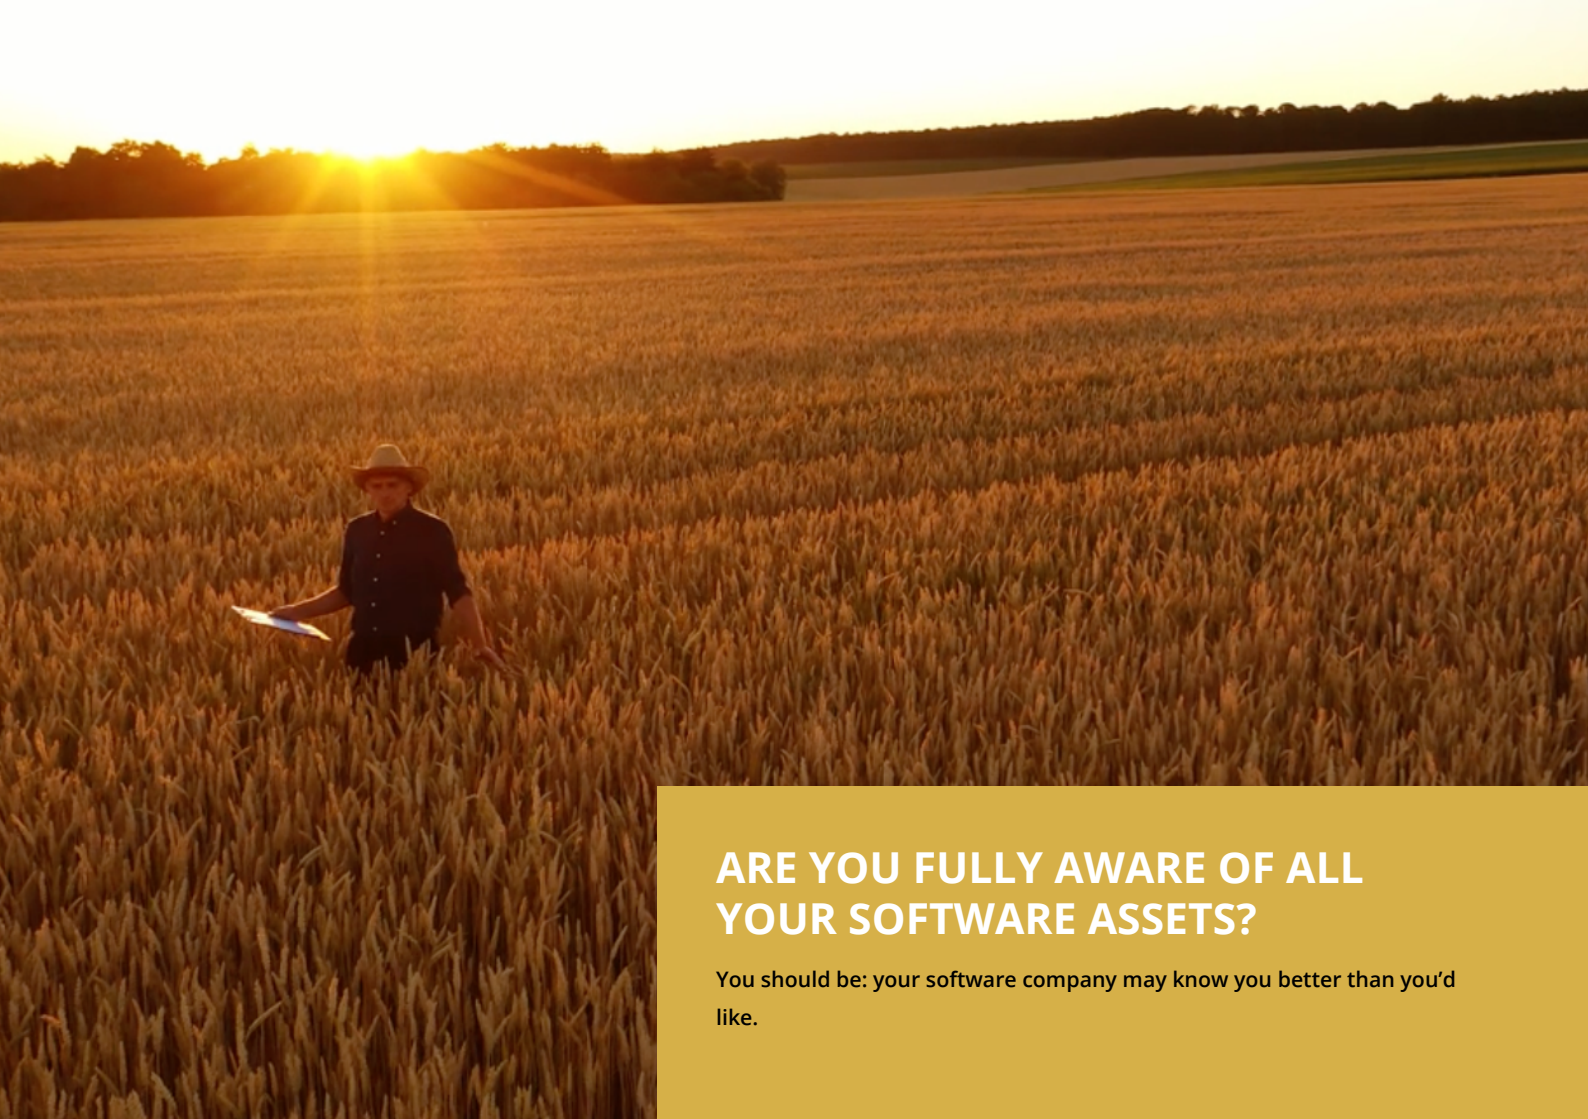

Our web-based tool is available anywhere, at any time, and eliminates the need for pre-installation, bypassing any system requirements.

With our optional managed services, which ensure you are as audit-proof and up to date as possible, Audit Butler is also ideal for smaller budgets.

ARE YOU FULLY AWARE OF ALL YOUR SOFTWARE ASSETS?

You should be: your software company may know you better than you'd like.

IT'S SO EASY TO BECOME A LICENSE MANAGEMENT PRO:

1.

Register for an account online

Our online shop makes it easy to buy the edition you require, whenever you want: STARTER, PROFESSIONAL or ENTERPRISE. You can also choose from various managed services.

2.

Account activation

We will check your order, then our service team will process it and create your personal account. After that you'll receive your login details.

3.

Start managing your licenses

As Audit Butler is so intuitive and user-friendly, you can begin your license management straight away. To get you started without any hassle, we recommend our optional onboarding service.

4.

Keeping up to date is key

Keep your data up to date at all times, with the minimum of effort. With our managed services, we'll happily take care of your data maintenance for you. You can free up your own resources, and you'll always have the latest overview to hand so you can focus on the essentials: software asset optimisation.
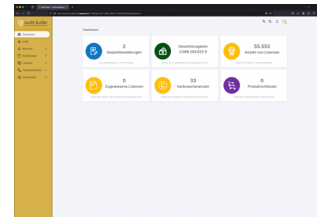

5.

Audit Butler videos – in simple terms

You'll find a series of videos on various subjects in our newsroom. Find out more about the benefits of our various editions or about managed and professional services.
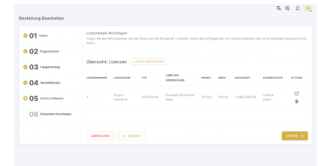

ORGANISATION:
THE KEY TO SUCCESS

1.

Dashboard

You can see all the essentials at a glance. With the dashboard and dynamic alerts, you'll be able to keep informed, optimise your licensing and prepare for your next audit. Simple, informative and always up to date, it will help you be on top of any dealings with software companies, presentations in board meetings or internal IT team meetings.

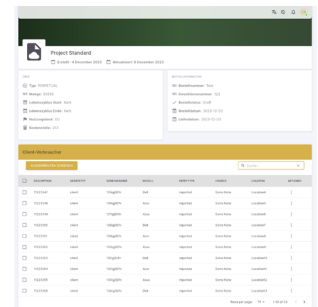

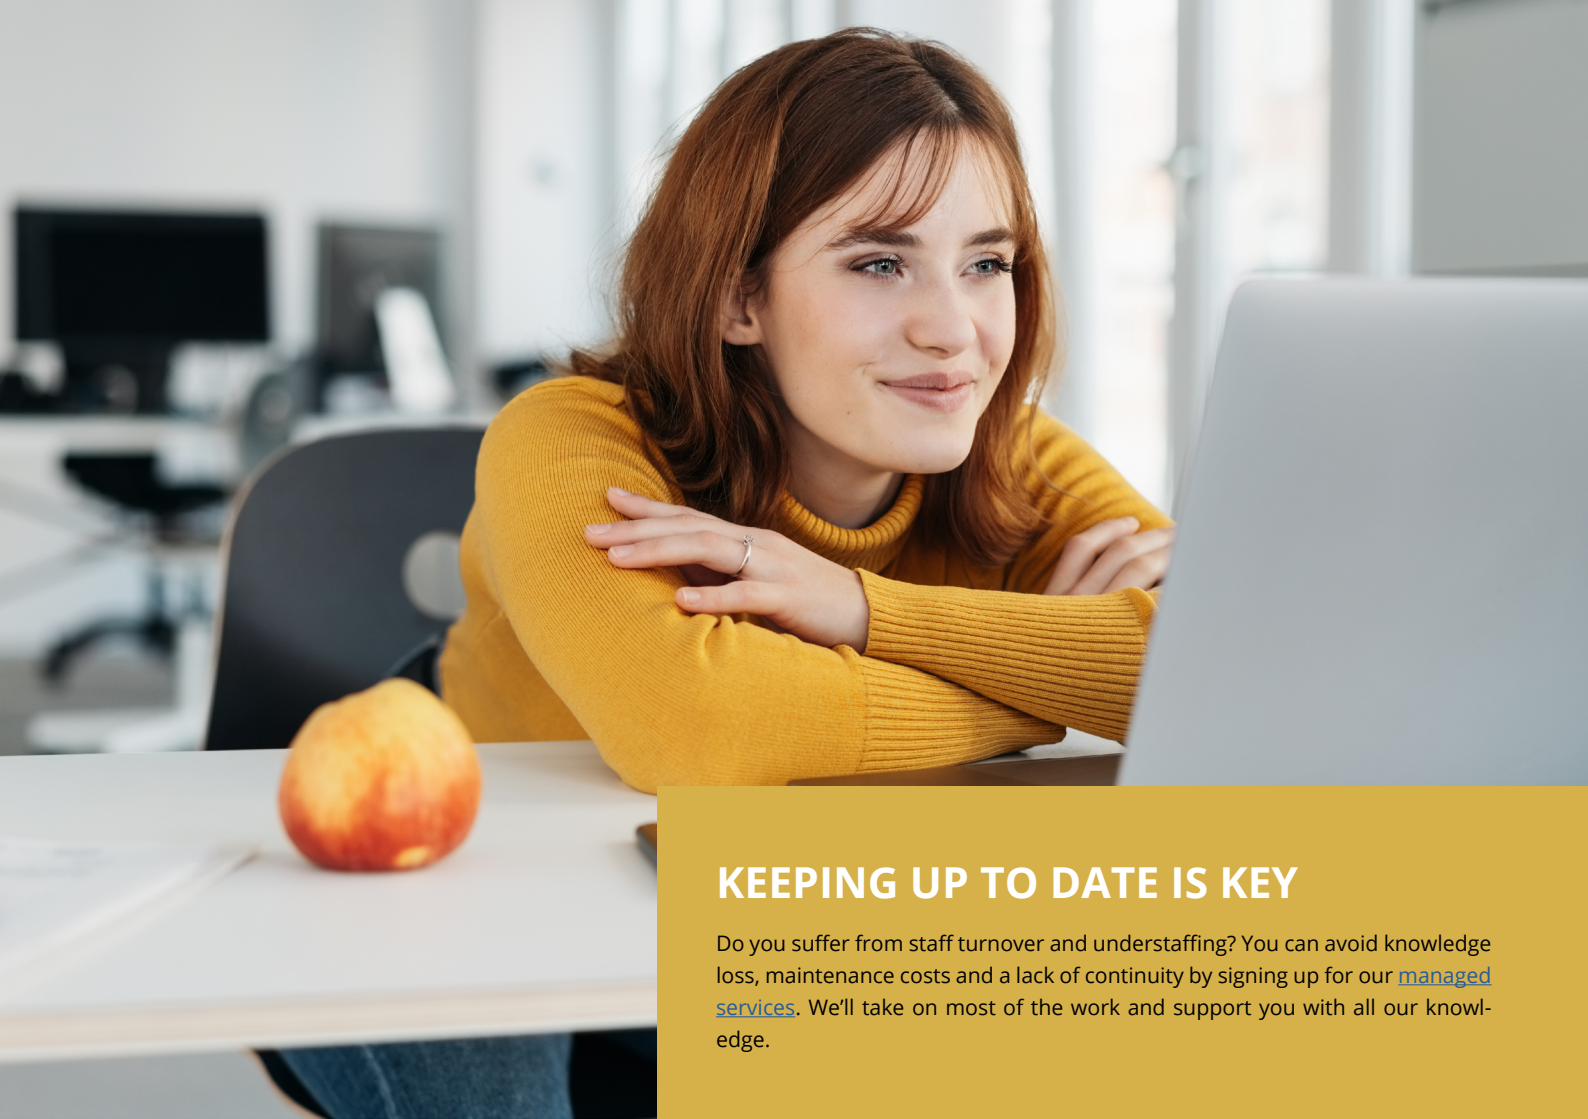

2.

Entering Licenses

Record and document all your contracts, subscriptions and licenses in no time at all. With the help of an extensive Microsoft product catalogue and built-in licensing expertise, you'll have an optimal user experience. With the option of uploading contracts with all their follow-up agreements, we provide you with a handy platform where you'll find all the relevant documents relating to the license life cycle.

3.

Assigning Users

Owning isn't the same thing as using! Having all your contracts and licenses recorded and documented is great, but we can do even more. You can also assign your assets to your users and devices! You'll have all the essential information about over- or under-licensing in your business, making it easy to meet your compliance requirements and optimise your costs.

KEEPING UP TO DATE IS KEY

Do you suffer from staff turnover and understaffing? You can avoid knowledge loss, maintenance costs and a lack of continuity by signing up for our [managed services](). We'll take on most of the work and support you with all our knowledge.
